**BEHLEN® COUNTRY™ BLUE POLY STOCK TANKS**

The Behlen® Country™ round poly stock tanks are one piece, roto-molded, poly tanks with a molded-in aluminum drain fitting for a 1/4" drain plug. The round tanks have a formed, open, smooth rim for strength. The tapered design of the tank allows them to nest together.

FDA approved, food grade polyethylene material is used in the construction of the tanks. This polyethylene material has Type 8 UV inhibitor rating and the color is light blue. Please find the data chart and illustration of a typical round Behlen Country tank.
