Farm & Ranch Equipment

Behlen[®] COUNTRY

At Behlen Country, we PRIDE ourselves on customer service and satisfaction. Our products are designed and tested for “real world” use. Whether you are a weekend enthusiast, a hobby farmer, a professional rancher, or a backyard gardener, the Behlen Country line of products brings you proven performance and solutions to maintain your land and animals.

Our retail partners benefit from our three convenient manufacturing locations and an in-house trucking company, BMC Transportation, to supply their retail stores quickly, saving on handling and inventory costs. Our wide variety of products allows more items to be delivered on one truck, offering even more savings!

Products with this American flag symbol beside them are proudly manufactured in the United States.

Gate & Corral Panel Performance

With our good, better, best approach, every Behlen Country gate and corral panel is designed to perform. Rugged, resilient and field proven, simply pick the level of performance you need for your site.

HD

Designed to withstand the most damaging conditions, the Heavy-Duty collection features 3 finishes, heavy gauge steel tubing, special Z-braces, and saddle weld joints, so you can count on them to last.

Gates

- Rugged 2" dia. tube
- Hefty 14 or 16 gauge steel
- Powder Coat, Galvanized or Hot-Dipped Galvanized Finish

Corral Panels

- Rugged 2" dia. tube
- Hefty 16 & 18 gauge steel
- Powder Coat, Galvanized or Hot-Dipped Galvanized Finish
- Heavy-duty 2" diameter arch gates, entrance panels and inverted arches

Heavy-Duty

MD

Our Medium-Duty lineup is great for 365-day wear and tear. Armed with tough materials and durable finishes, Medium-Duty thrives in heavy traffic and bad weather.

Gates

- Rugged 1-5/8" dia. tube
- Heavy 16 & 18 gauge steel
- Resilient Powder Coated or Galvanized Finish

Corral Panels

- Rugged 2" & 1-5/8" dia. tube
- 16 & 18 gauge steel
- Powder Coat or Galvanized Finish
- Medium-duty 1-5/8" dia. entrance panels & arch gates

Medium-Duty

U

For everyday performance that will last, and last, the Utility lineup is made for the job. Big on value, and low on maintenance, Utility works as hard as you do.

Gates

- Utility 1-5/8" dia. tubes
- Utility 20 gauge steel
- Resilient Powder Coated or Galvanized Finish

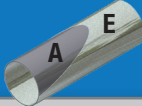

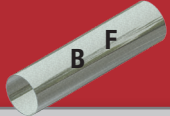

Corral Panels

- Utility 1-5/8" dia. tube
- Utility 18/20 gauge steel
- Resilient Powder Coated or Galvanized Finish

Hog Mesh Gate

2"x 4" Mesh Gate 

 GALVANIZED

The Hog Mesh Gate is galvanized for long life. The 6 gauge mesh woven in a "hog" pattern is 40% heavier than the competition! Features variable spacing in the mesh which is best for small animals. Bolt-on hinges allow gate to be easily reversed when hanging two gates together. Square corner. 5/8" x 6" screw hooks.

Gate Hardware Packages

Behlen Country hardware packages are weatherproof and sun-resistant. No other livestock equipment manufacturer offers this easy-to-use, complete kit. Offer your customers something unique!

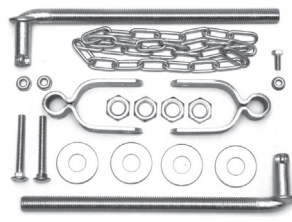

- High quality, rust-resistant, plated hardware compared to painted.
- Chain attached after fabrication which leaves the gate with the best possible finish. Chain is NOT welded to the gate which can leave a hole in the gate and a rusty spot for decreased life.
- No worries with installation as Behlen Country® includes gate installation instructions with every package.
- Strong, UV resistant covering on hardware packages for extended life.
- Easy identification for individual ordering with the large, easy-to-read barcode.

Package 1

Two 5/8" x 6" screw hooks, two 1-5/8" hinges, chain with snap and hardware.

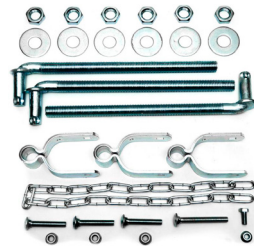

Item # 40900158

Package 2

Two 3/4" x 12" bolt hooks, two 2" hinges, chain and hardware.

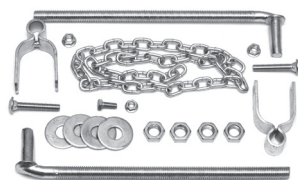

Item # 40900108

Package 3

Three 3/4" x 12" bolt hooks, three 2" hinges, chain and hardware.

Item # 40900118

Package 4

Two 5/8" x 12" bolt hooks and two 1-5/8" hinges, chain and hardware.

Item # 40900198

Package 5

Three 5/8" x 6" screw hooks and three 1-5/8" hinges and chain assembly with snap.

Item # 40900208

UPS shipping is available for gate hardware packages.

NOTE: There is a minimum dollar amount for all UPS shipping orders. Please call us at 800-447-2751 or visit www.behlencountry.com for more information.

Gate Racks & Stands

Gate Stands

The peg style gate stand allows gates to be merchandised vertically, allowing customers to fully inspect and visualize gates in use. Gates can be stored on pegs for secure display or double the capacity by setting gates between pegs. Stand is finished with our premium Powder Coat Paint.

15 Peg Gate Stand

Item # 82100610YEL

Weight 40 lb ● YELLOW

Gate Rack

Display Rack designed with two levels for showcasing gates. May be anchored to concrete or asphalt. Holds up to 40 2" gates or kennels.

Item # 82100307

Weight 281 lb ● BLACK

Single Tier Rack

Display Rack designed with one level for showcasing gates. Can be anchored to concrete or asphalt. Holds up to 20 2" gates.

Item # 82100207

Weight 218 lb ● BLACK

NOTE: Colors pictured may vary from actual product.

How to calculate your round pen:

- 1.) To find the number of panels needed, multiply the desired diameter (straight line passing through the center of the circle) by 3.14. This will determine the circumference (the distance around the circle).

2.) Divide the circumference by the length of panels being used. This will equal the number of panels needed.

ROUND PEN CHART																
DIAMETER OF HOLDING AREA (FEET)																
20'	25'	30'	35'	40'	45'	50'	55'	60'	65'	70'	75'	80'	85'	90'	95'	100'
6	8	9	11	13	14	16	17	19	20	22	24	25	27	28	30	31
5	7	8	9	10	12	13	14	15	17	18	20	21	22	24	25	26
NUMBER OF PANELS NEEDED																

NOTE: Sizes are approximate. Quantities above include entrance panel of same length as corral panel. Pen diameters will vary depending on size of entrance panel or arch gate.

NOTE: All Pin Hook-up Panels have unified corral hook-ups

2" • 16 Ga. Panel

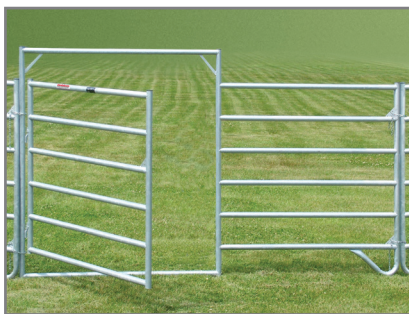

Heavy-Duty

XT Corral Panels | 6 Rail • 72" Tall

The XT Corral Panel is designed for training horses in round pens. Square corners and tight chain connections reduce space between panels (butterfly clamps are optional). Finished with either our premium powder coat paint or our long-lasting hot-dipped galvanized finish.

● HOT-DIPPED GALVANIZED ● GRAY

XT 12' Entrance Panel w/ 6' x 7' Arch Gate, finished with long-lasting hot-dipped galvanized finish.

XT 12' Entrance Panel w/ 6' x 7' Arch Gate, finished with premium powder coat paint.

2" • 16 Ga. Panel

Heavy-Duty

Crowding Corral Panels | 66" Tall

The Crowding Corral panels are designed specifically for crowding situations with square corners, J-legs and pin hook-ups. These corral panels are built for rough use and include Pin Hookups for easy connection. Our unique J-leg design has a small contact point with the ground to prevent unwanted panel movement. Finished with our premium powder coat paint.

Longest lasting Fence Panels on the Market!

- All panels are **hot-dip galvanized** after welding so all weld spots are completely covered, eliminating rust and corrosion at all "shear" points and joints.
- Zinc dramatically increases fence life, eliminates rust and reduces rod separation.
- Hot-dipped galvanized delivers more than 3 times the protection of pre-galvanized rod.
- Available in a wide range of sizes for various applications.

WARRANTY NOTE: Fence Panels
have a FIVE-YEAR WARRANTY.

Modular Horse Stalls

- **Powder Coated Panels** are finished with full baked gray premium powder coated polyester paint.
- **Premium Hot-Dipped Galvanized Panels** are hot-dipped galvanized after fabrication for the ultimate in corrosion resistance and long life.

Gray Powder Coated Stall Pictured (Wood Customer Supplied)

Stall Features

- Affordable, easy-to-set-up modular system allows for various row configurations.
- Heavy 14 gauge, 2" round tube framing is used for extra strength and stability. Horse Stalls are 84" tall.
- 1/2" solid vertical rods spaced 3" apart allow for better ventilation and viewing.
- Each reversible stall front comes with a 4' left-hand rolling door and 2' feeder door.
- Feeder door swings out easily and is low enough to allow even a child to use.
- Main door rollers on top allow the door to glide easily with minimal effort.
- Optional Corner Feeders can be attached for feeding from outside the stall.
- Lower 4' of stall can be filled with 2" (customer supplied) lumber (Comes with a chart that explains how to cut the wood. Designed to accept any 2" planed lumber ie. 2" x 6", 2" x 8", etc.)
- **For quantities of more than thirty (30) stalls, please call for lead time.**

NOTE: Feed door not to be used as a breezeway opening. Do not leave feed door open when not attended.

Reversible latches allow stall to be easily configured as right or left entrance.

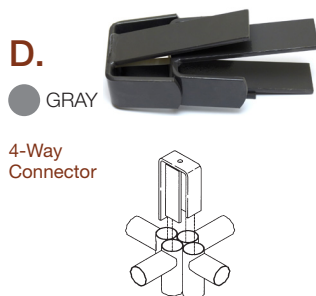

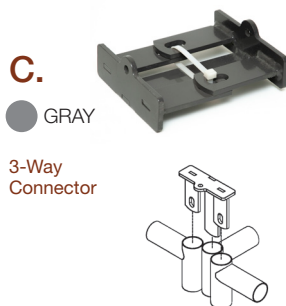

Feed Door Latch

Stall Connectors

NOTE: Stall Connectors do not come with panels - they must be ordered separately.

NOTE: UPS Shipping available for stall connectors.

Modular Shelter Kits... Engineered to be Strong and Versatile.

Customized to fit YOUR Operation!

Thirteen prepackaged kits integrate different collections of these great components:

- XT Corral Panels
- Stall Panels
- 12' Open Support Brace
- Shelter Packages
- Roof Connectors

● HOT-DIPPED GALVANIZED ● GRAY

- Can be added to as your needs change.
- Considered a “portable shelter” (can be built in most areas without a building permit, check your local regulations).
- Includes 2" butterfly clamps (gray or galvanized).
- Each stall corner and each connection between corral panels

requires a pair of connectors; XT Panels come with chain hookups; however, butterfly clamps make a more sturdy connection.

- Corner and center foot pads keep corral panels from sinking.
- Provides a 40-psf roof snow load, 90-mph wind load, when properly installed with 29 gauge or heavier roof sheeting.

IMPORTANT NOTE: The Behlen Country Shelter System will work only with the Behlen Country 12' XT Corral Panels and Behlen Country 12' Stalls. Any substitution with other equipment may not work and will void all warranties. Behlen does not provide roof sheeting, ridge caps, roof screws or wood.

SHIPPING NOTES: Please contact us by phone at (800) 447-2751, for more information.

NOTE: Powder Coated panels are standard. Kits can be itemized to include Hot-Dipped Galvanized panels.

Modular Shelter Components

• NOTE: The Behlen Country shelter system will work only with Behlen Country 12' XT Corral Panels and Behlen Country 12' Stalls Panels. Any substitution with other equipment will not work and all warranties will be voided. Pictures showing installations complete with roof sheeting and wood sides are for reference only. Behlen Country does not provide roof sheeting, ridge caps, roof screws or wood. (Photos shown are variations of kits.) Behlen Country previously made a 12' x 12' shelter. None of these 12' x 15' shelter parts will fit the older units.

• NOTE: In a row of shelters, you would buy one Shelter Framing Package (76110678) and from that point on, you would buy all Add-ons (76110708). If you placed two shelters facing each other with a breezeway between them you would have to buy two Shelter Framing Packages and two 6' Center Roof Connectors (76110708). Each additional pair of facing stalls would require two more add-on framing packages and one more 6' center connector.

• NOTE: 6' Center Connectors are not used unless you are setting up pairs of shelters facing each other with a breezeway between them.

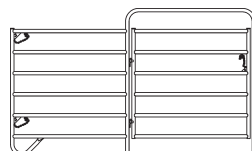

12' XT Corral Panel

Item # 44131127 (Gray)

Item # 44131129 (Galvanized)

12' long, 6' high, 16/18 gauge 2" dia. tubing, chain hookups included.

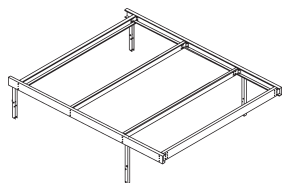

12' XT Entrance Panel

Item # 44131037 (Gray)

Item # 44131039 (Galvanized)

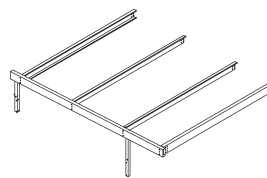

12' long, 6' high with 6' x 7' gate, used for front (or back, or both) of XT pen.

Shelter Framing Package

Item # 76110678

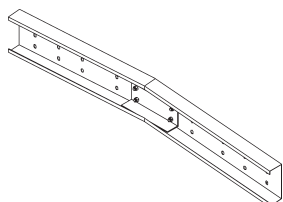

Basic roof framing for one pen or stall (12' x 15' w/front overhang), includes beams, purlins, shelter posts, butterfly clamps (to connect stall and XT Panels) and hardware.

Shelter Framing Package

Add-on Item # 76110708

For second unit. Bolts to Shelter Framing Package, uses common beam. Includes beams, purlins, shelter posts, butterfly clamps (to connect stall and XT Panels) and hardware.

6' Center Connector

Item # 76110688

This item makes a 6' piece that joins two shelters which are set up facing each other with a 12' breezeway in between. For a pair of shelters, you would buy two 6' Center Connectors. For each additional pair of stalls, you would buy one more center connector.

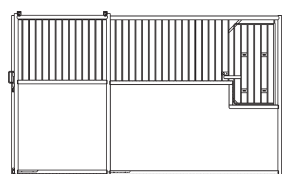

12' Open Support Brace

Item # 76110697 (Gray)

Item # 76110699 (Galvanized)

If you leave the front or back of a pen or stall open, you must use a 12' Open Support Brace to hold the sides securely.

When ordered as an individual component, 4 pair (2 pkgs.) of butterfly clamps must be ordered separately.

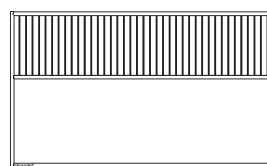

Filler NOT Included

12' Stall Front w/Door, w/Bars

Item # 76110287 (Gray)

Item # 76110289 (Galvanized)

12' wide, 7' high, 4' wide sliding door, 2' wide feed door, (feeder optional), customer supplied filler on bottom, solid steel vertical bars on top.

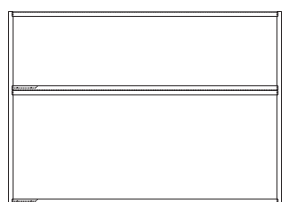

Filler NOT Included

12' Stall Panel w/Bars

Item # 76110297 (Gray)

Item # 76110299 (Galvanized)

12' wide, 7' high, customer supplied filler on bottom, solid steel vertical bars on top.

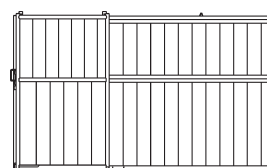

Filler NOT Included

12' Stall Panel, Solid

Item # 76110257 (Gray)

Item # 76110259 (Galvanized)

12' wide, 7' high, metal frame with customer supplied filler on top and bottom.

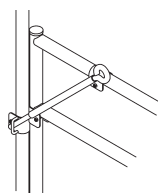

Filler NOT Included

12' Solid Stall Front w/Door

Item # 76110727 (Gray)

Item # 76110729 (Galvanized)

12' wide, 7' high, 4' wide sliding door, customer supplied filler on top and bottom.

Optional Horse Gate Latch

Item # 44112207

Very simple, low-cost, bolt-on latch for XT Entrance Panel, or any other 1-5/8" or 2" Behlen gate.

NOTE: Colors pictured may vary from actual product.

Industry-Leading Equine Feeding & Watering Equipment

Wall Hay Rack

Made with 3/8" dia. rod and finished with our gray premium powder coat paint.

- H/W/D 27"/33"/13" Depth from wall is 13" • WT 15 lb

Item # 76110867 

Corner Hay Rack

Made with 3/8" dia. rod and finished with our gray premium powder coat paint.

- H/W/D 32"/30"/30" Depth from corner is 30" • WT 17 lb

Item # 76110907 

Galvanized Wall Feeder

Holds hay and grain. Constructed of heavy galvanized steel and hay rack is constructed from solid, galvanized rod. Includes a poly trough that is rust and corrosion free.

- H/W/D 31"/24"/19" • WT 37 lb

Item # 76110148 

Galvanized Corner Feeder

Corner design holds hay and grain. Constructed of heavy galvanized steel and hay rack is constructed from solid, galvanized rod.

Includes a poly trough that is rust and corrosion free. Compatible with Behlen Country stall fronts with feed door.

- H/W/D 27"/21"/24" • WT 32 lb

Item # 76110128 

Swing Out Corner Feeder

For applications where a feed door is not already installed. *Not intended for stall fronts with feed door.

- H/W/D 35"/20"/12" • WT 61 lb

Item # 76110138 

Poly Wall Feeder w/Brackets

Poly Wall Feeder features one-piece molded unit with smooth edges and a galvanized hay rack.

- H/W/D 28"/24"/18" Depth from wall 18" • WT 19 lb

Item # 78110147 

UPS shipping is available for all items on this page.

Poly Corner Feeder

Made of poly with solid, galvanized rods for the hay rack. One-piece molded unit with smooth, rounded edges for animal safety. Compatible with Behlen Country stall fronts with feed door.

• H/W/D 35"/21"/21" • WT 22 lb

Item # 78110067 

Poly Horse Grain Feeder

Feeder helps prevent throwing, pushing or spilling feed from the bowl. Smooth edges prevent animal injuries. Can be mounted in the corner or on a flat surface.

• H/W/D 11"/24"/15" Depth from wall 10" • WT 4 lb • 3.5 gal. cap.

Item # 78110037 

Poly Utility Corner Feeder

Large capacity feeder that will not rust, warp or deteriorate in sunlight. Includes drain for easy cleaning.

• H/W/D 28"/24"/24" Depth from corner 30" • WT 19 lb

Item # 78110027 

Multipurpose Storage Container

Features all-poly construction that will not corrode or rust and a strong metal hinge to support the lid. Holds up to 400 lb of feed and can be divided into two compartments using 2 pieces of 1" thick lumber (customer supplied).

• L/W/H 24"/25"/34" • WT 33 lb • Gray

Item # 78110087 

Grooming Step

Made of strong roto-molded poly with a wide base design that is stable and the steps are slip resistant. Ideal extra step up when grooming or mounting a horse.

• H/W/D 24"/24"/17" • WT 17 lb

• Green

Item # 78110162 

*Tested 24 hours in a controlled environment.

5-Gallon Stall Waterer

One-piece, heavily insulated waterer, poly design is rust and corrosion free. Urethane in the walls provide over four times the insulation of competitors' models (tested to -20° F*). • H/W/D 16"/18"/16" Depth from wall 12" • WT 14 lb

Item # 54140058S 

Patience Pole

The 12' tall Patience Poles are designed with a hub and tether bar to allow the horse to freely move in a circle without becoming tangled. After a while, the horse realizes they aren't going to get anywhere, so they might as well stand and relax. Made with an industrial grade bearing that never requires lubrication the poles are attractive and require virtually no upkeep.

• WT 160 lb • Green

Heavy-duty All Metal Feed Bunk

One of the toughest made feed bunks in the industry! This feed bunk is ideal for any size cattle herd. Can be easily moved from pen to pen. Line up multiple units to quickly feed more animals. This unit's heavy-duty construction and high quality, powder coat finish makes it an asset for any size cattle operation.

- Extra Large Capacity • 14 ga. trough
- L/W/H 10' x 40" x 24"
- Trough Depth 14"
- Bunk Capacity 30 cu. ft.
- WT 242 lb

Item # 22130101

Our all metal bunks are heavier, stronger, and hold more than the competition!

REPLACEMENT BUNK LINERS • 5' Item # 2958301

• 10' Item # 2958302 • 11' Item # 2958360

11' Standard Feed Bunk

The Standard Feed Bunk features heavy-duty 16 gauge tubular frame. Tough, one-piece trough insert prevents corrosion. The frame features smooth, all welded edges to prevent injury and square ends that allow multiple bunks to be bolted together.

- L/W/H 11' x 34" x 20" • Trough Depth 10"
- Bunk Capacity 17.5 cu. ft. • WT 113 lb

Item # 22121942

10' Painted Feed Bunk

Built with heavy-duty steel construction with a one-piece molded poly trough that features smooth, round corners. Square ends allow multiple bunks to be bolted together and are coated with our premium powder coat paint.

- L/W/H 10' x 34" x 19" • Trough Depth 10"
- Bunk Capacity 12.5 cu. ft. • WT 76 lb

Item # 22121791

10' All Metal Utility Bunk

A long-lasting, heavy-duty steel construction with 48% more capacity than some of our biggest competitors' units. The legs of the utility metal feed bunk run the length of the unit to aid in preventing the feeder from sinking in the mud. The all metal utility bunk is made with 16 gauge metal, and is great for all sizes of cattle.

- L/W/H 10' x 33" x 20" • Trough Depth 10" • Bunk Capacity 13.29 cu. ft.
- WT 124 lb

Item # 22120101

Poly Feed Bunks

All poly feed bunks are roto-molded with extra thick, FDA-approved, food-grade polyethylene that is easy to clean and corrosion free. Poly feed bunks feature ribbed, double-wall construction. The deep, rounded feed troughs and drain openings help prevent spoiling of feed and are tested to -20°F. The plugable drain also allows these bunks to be used as water troughs.

Larger, Stronger, & will outlast the competition's.

Leading Supplier of Galvanized Stock Tanks

The Behlen Country Galvanized Stock tanks are ideal for all your livestock watering needs. Built to endure the most severe farm and ranch conditions. Corrosion resistant, heavy zinc coating assures long life. Rigid sidewalls have both ribs and corrugations for maximum strength. Heavy galvanized tank bottoms (20 ga.). Heavy, reinforced steel tube rolled into the top lip for added strength and durability.

NOTE: Tank sizes are nominal and will be slightly less than stated size. For lower freight costs, two or three tanks of the same size must be nested, requiring the inner tanks to be undersized.

WARRANTY NOTE: Galvanized Tanks have a ONE-YEAR WARRANTY.

Galvanized Waterer Tanks

- The poly waterer has a large opening to make it easier for animals to drink.
- The waterer box and float are molded from tough, food-grade polyethylene for cleanliness and long life.
- The built-in float guard protects the valve and float mechanism.
- Valves adjust easily for proper water level.
- The rubber gasket seal prevents leaking.

Flex Poly Stock Tanks

- Durable, solid design resists breakage.
- All round-end tanks have an extra heavy-duty, molded rim and an extra-deep sidewall rib design for additional strength.
- Round tanks have a “formed open” rim.
- Heavy-duty, molded-in aluminum drain fitting and 1¼" poly drain plug ensure a long-life. (PRE214 & PRE216 have no drain plugs because they are easy to tip.)
- FDA food-grade approved poly, tested to -20° F, corrosion-free, impact resistant and recyclable.
- Premium UV Protection assures long life and resistance to color fade in outdoor use.

NOTE: It is recommended to install braces on the PRE328 model.

WARRANTY NOTE: Flex Poly Round Tanks have a TWO-YEAR WARRANTY. Flex Poly Round End Tanks have a THREE-YEAR WARRANTY.

Best Value in the Industry!

Energy-Free Waterers

Energy-Free Waterers

- Built-in hold downs.
- New, non-siphoning MC water valve, which features:
 - Fast, consistent fill.
 - Units have a non-siphoning, easy maintenance water valve.
 - Use with pressure lines from 25-55 p.s.i.
 - Additional pressure regulator required for pressures above 55 p.s.i.
- Removable drain plugs and accessible covers.
- Fully assembled, ready to install.
- To ensure proper operation in cold weather, it is recommended that each unit be installed with the Poly Earth Tube (purchased separately).
- For optimal performance install in shaded area in hot climates.
- Premium UV Protection assures long life and resistance to color fade in outdoor use.

Super 2 or 4-Hole Waterer

Designed for heavy cattle use in extremely cold temperatures. Tested at -20°F for 48 hours without freezing with no animals drinking. Rim design helps keep float balls free of ice buildup. Extra-thick 4" urethane insulation.

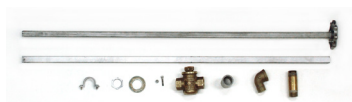

Earth Tubes 18" & 24"

Heavily insulated design. Provides the protection needed to keep the riser pipe from freezing below the ground even in the coldest weather.

Shut-off Valve Kit

Hydrant style drain back feature protects waterer from freezing when not in use.

2 or 4-Hole Cattle Waterer

Built-in hold downs. New, non-siphoning MC water valve for up to 55 PSI. Fully assembled and ready to install. Poly Earth Tubes (purchased separately) recommended for operation in freezing weather.

Electric Waterers

- One-piece, heavily insulated waterer, poly design is rust and corrosion free.
- Thick styrofoam floor keeps the frost line below the waterer.
- Low-wattage, infrared heat pad directly under the water trough (starts at approximately 42°F and shuts off at approximately 73°F).
- Heat pads are totally isolated from the animal to prevent danger from shock.
- Double-insulated design eliminates the possibility of stray voltage.
- Units have a non-siphoning, easy maintenance water valve.
- Additional pressure regulator required for pressures above 55 p.s.i.
- An optional low-pressure valve is available for special applications.
- Built-in hold downs.
- Removable drain plugs.
- Easy access doors.
- Fully assembled, ready to install.

- Premium UV Protection assures long life and resistance to color fade in outdoor use.

WARRANTY NOTE: Electric Drinkers have a FIVE-YEAR LIMITED WARRANTY on the body and a ONE-YEAR LIMITED WARRANTY on valves and controls.

Best Value Chute and Headgate Combos!

Don't Operate Without a Chute

If you keep a herd of 50 head or less, you might not think a squeeze chute is for you. Yes, you can work cattle with a headgate, or the help of a few loyal friends who rope. But there are lots of reasons why use of a squeeze chute should be on the top of your list. Your safety is at the top of that list. Herd health, and the related economic benefit it creates, is also an important payoff.

For example, researchers at the University of Kentucky developed enterprise budgets for 50-cow herds with a \$5,000 investment in handling facilities that included a headgate and chute. The resulting increases in calving percentages and weaning weights, as well as lower death loss rates for both cows and calves, proved that the investment paid for itself in less than five years.

Choosing the Right Chute

Before buying a squeeze chute, you need to answer a few questions about its intended use. Bovines come in all sizes, weights and attitudes, so a chute that works for one producer may not work for another.

Some squeeze chutes apply squeeze pressure from only one side, while others squeeze from both sides, forming a 'V' shape that helps balance and support the animal. Regardless of design, experts agree that the best squeeze chutes allow both sides to squeeze equally, thus keeping

the animal balanced. The Canada Plan Service gives the following guidelines for the inside widths of the chute at the bottom of the V shape:

- Six inches for 250 to 400 pound calves.
- Eight inches for 600 to 800 pound animals.
- Twelve inches for cows and heavy feeders.
- Fourteen to sixteen inches for larger bulls.

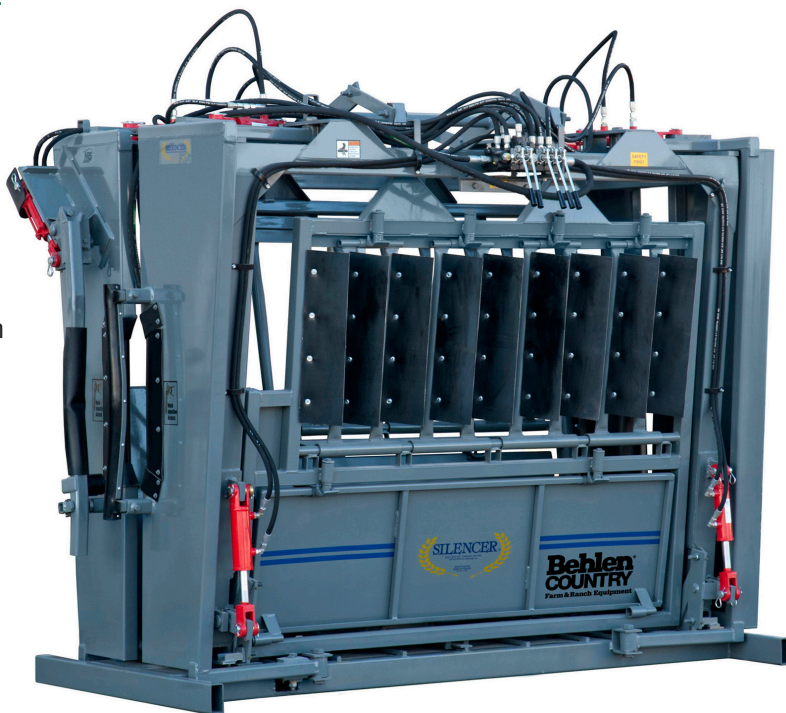

Animal scientists with the Alabama Cooperative Extension service list four basic types of headgates: self-catching, scissors-stanchion, positive-control, and full-opening stanchion. Once again, you need to know what kind of animal you'll run through the chute. For example, self-catching gates don't work well with horned cattle. There are lots of options available:

- A door or space that allows injections to be given in an animal's neck is a necessity in order to avoid damaging expensive cuts of meat.
- A service door or palpation cage provides access to the rear of animals.
- Hydraulic squeeze chutes take a lot of the effort out of operation.

Silencer™

Hydraulic Squeeze Chute

- The most innovative and technologically advanced chute in the cattle industry.
- A patented noise reduction system of 130 contact points sheathed in oil based polyethylene to significantly reduce the noise level.
- Full-opening head and tail door.
- The headgate is wrapped in rubber to prevent shoulder damage to the animal.
- Hydraulic head restraint (becomes half of the neck bars when used that way).
- Rubber louvers prevent animals from seeing humans to the side of chute.
- Side exit available Left/Right/Both.
- Neck bar Left/Right.
- Hydraulic Lower Squeeze.
- Dual additional neck access for precision vaccinating.
- Choice of power units.
- For animals from 350 lb on up.
- Gray premium powder coat paint.

Heavy-Duty Model

In addition to the standard features, the main frame has 4" x 2" x 3/16" rectangular tubing, 1/4" wall side-gates, 1/4" floor for increased life of chute, modular construction for superior maintenance, replaceable heavy-duty drop bars, 10 quick change relube roller bearings - top connector and lower head door connector and 6 - 4 x 2 cylinders.

Deluxe Ranch & Heavy-duty Extended Chutes

Silencer Extended model chutes are designed with a rear door for the operator to step in behind the animal for artificial insemination, semen checking, pregnancy checking, embryo transfer, etc.

**Other models and options, are available.
Call 800-447-2751 for quotes.**

Additional Options

Heavy-duty and Commercial Pro, Extended Length, Palpation doors, Pivot Controls, Pivot Controls w/Overhead Scales, Dual Controls, Neck Bars, Hydraulic Neck Extenders Left/Right/Middle, Dehorner Bar, Hydraulic Kick Bar, Yearling Side Gates-Both Sides, Brisket Bar, Rebar Floor, Platform Scales, Vertical/Horizontal Split Drop Pan, Leg Puller.

Care Center

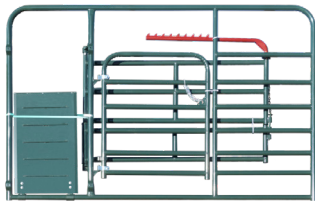

Portable Calving & Sick Pen

- Provides a portable and self-contained working area to assist with calving and calf acceptance (nursing) problems.
- Ideal cattle work area for smaller operations.
- One-man operation and complete portability make it an essential part of any cattle operation.
- Accepts any Behlen Country Headgate.
- The squeeze gate is split, to allow it to swing out of the way to correct nursing problems, graft calves to cows or perform caesareans.
- Comes standard with 10' panels but can be enlarged by using 12', 14' or 16' side panels; the 4' access door provides easy entrance.
- The Split Squeeze Gate can be swung out of the way to convert the Portable Care Center into a pen for treating and containing sick animals.

Arena Ace™

Create excellent footing for your equestrian needs with the Arena Ace offered by Behlen Country. Whether you have a commercial facility or small training barn, this groomer adjusts to be suitable for a variety of needs and conditions. With ease it creates a good base and finished top surface. This groomer's s-tines can be adjusted to your desired depth, ensuring penetration of the surface and break down of dirt clumps. The leveling bar behind the s-tines levels any hills or valleys. Behind the leveling bar is a set of roller bars that leave a nice, finished surface. This groomer is ideal to be used with category 1 or 2 tractor (up to 50 HP max) and works great in dirt or sand arenas.

- Depth adjustability: Depth Bar 8" and Roller 4"
- Length of tines and/or greatest digging depth: Point 2-1/2" to 5" and Tine is 14" w/point.

Behlen[®] **COUNTRY**

Farm & Ranch Equipment

ALL EQUIPMENT IS PROTECTED BY OUR EXCLUSIVE ONE-YEAR WARRANTY (Unless listed otherwise)

AGRICULTURAL PRODUCT WARRANTY:

Behlen Country warrants to the original purchaser that its products that prove to be defective in materials or workmanship within one year from the date of purchase will be repaired or replaced at Behlen Country's option, free of charge, F.O.B. closest plant location, U.S.A.

Energy-free, electric and insulated drinker bodies have a limited five-year warranty from date of purchase. Component parts, such as electric motors, heaters, valves and controls that are manufactured by a company other than Behlen Country, have a one-year limited warranty by Behlen Country. Additional warranties by the manufacturer of these items may also apply.

All poly round tanks and poly bunks have a two-year limited warranty. All poly round end tanks have a three-year limited warranty. All fence panels have a five-year limited warranty.

WHAT IS NOT COVERED BY THE WARRANTY:

This warranty does not cover:

1. Assemblages not made in accordance with installation instructions, and defects arising thereof.
2. When the operation of the product varies from our operating instructions.
3. Malfunction or defect resulting from misuse, negligence, alteration, accident, natural disasters, failure to reasonably care for, or lack of performance of required maintenance.
4. Loss of time, inconvenience, loss-of-use of product, or any or all CONSEQUENTIAL DAMAGES.
5. Use of the product in industrial application, or any application not involved in the business of farming or ranching.

SERVICE PARTS POLICY:

1. Repair parts are provided for all current models.
2. Limited availability of common service parts for recently discontinued items.
3. Repair parts will not be manufactured for obsoleted equipment and can only be supplied subject to availability in inventory.

FOR QUESTIONS REGARDING WARRANTY:

Discuss the problem with your dealer or distributor, or contact a Customer Service Representative toll-free at 1-800-447-2751. Proof of purchase and date of purchase are required.
